MEMORANDUM FOR: Director of Personnel

Bob:

You will remember that a couple of months ago I told you that [REDACTED] had expressed to me some unhappiness about the assistance, or lack of it, which your outplacement people had given in his search for a job. I thought you would be pleased to know that, when he stopped by to say good-bye to me this morning, he gave them full marks for facilitating his placement in a good job for which he feels well qualified, is to be well paid, and about which he is in general very pleased.

STATINTL

Congratulations.

CENTRAL INTELLIGENCE AGENCY

WASHINGTON, D. C. 20505

OFFICE OF THE DIRECTOR

16 March 1970

Mr. Frank Milliken, President
Kennecott Copper Corporation
161 East 42nd Street
New York, New York 10017

Dear Frank:

It has come to my attention that there may be an opening for a public relations executive at Kennecott in the near future. With that in mind, I have taken the liberty of enclosing the résumé of a senior Agency official whose career and related experience I would greatly appreciate your bringing to the attention of those within your organization concerned with filling the vacancy.

NTL [REDACTED] has been a valued associate for more than twenty years and for family reasons is now preparing to leave the Agency with my reluctant consent. I can testify to [REDACTED] broad professional experience in the media field, and to his ability to get things done. When [REDACTED] plans recently became known, he was approached by the White House to join its information staff; however, he prefers returning to private industry. Who's Who summarizes his career as it is known to the world at large.

STATINTL

STATINTL

Again, I will be most appreciative of any consideration you may be able to give [REDACTED]

STATINTL
